

Part 2 Section F – For Users of Other Renewable Energy Resources

We appreciate any information that you are able to provide. If you cannot answer all of the questions asked in this survey, please answer those that you can.

Note: We are not collecting data in this survey on large hydroelectric units, ethanol or residential firewood. Data for other types of renewable energy resources such as small lowhead hydroelectric installations can be reported here. The effort to collect comprehensive statewide data is limited to the renewable energy resources that are covered by Part 2 Sections A through E of this questionnaire.

1) Overview of your use of this renewable energy source

- a) Please characterize this renewable energy source, the amount you use, how you produce or purchase it and how you use it.

- b) When did you first begin to use this renewable energy resource? ____/____ (month/year)
c) If you did not use this renewable energy source, what energy source would you substitute?

As explained in "How to Fill out this Survey," you may request confidentiality for any information that you submit.
For questions about costs and prices, we provide a response box that you may use to request confidentiality.
We will assume that all information is public unless you request otherwise.

- d) Please list the designer/architect/manufacturer, model and other pertinent information about facilities and equipment associated with your use of this renewable energy source.

- e) If you have confronted major technical, regulatory or utility-related issues or barriers in using this renewable energy resource, please list them and briefly indicate how they were resolved.

2) Cost

- a) Please estimate your total investment for the components listed in 1d. \$_____  
- b) Please estimate your annual savings from using this renewable resource. \$_____  
- c) Please describe any other economic benefits you have received from investing in and using this renewable resource.

- d) Please attach any additional information you can provide concerning your cost and payback period on investments required to use this renewable energy resource.

3) Reasons for using (What are the main reasons you chose to use this renewable energy resource?)

- a) To save money
- b) Quality or reliability of the energy
- c) Environmental considerations
- d) Personal interest in learning and applying the technology
- e) To serve an energy need in a location where other energy sources are not readily available
- f) Other _____

4) Please attach any additional information about your production or use of this renewable energy source that may help others interested in this source.

----- End of Part 2 Section F – Thank You -----

As explained in "How to Fill out this Survey," you may request confidentiality for any information that you submit.
For questions about costs and prices, we provide a response box that you may use to request confidentiality.
We will assume that all information is public unless you request otherwise.
